

# Recover Your Identity and Start Living Your Life

## Family Constellation Workshop

**November 19 from 6:00pm till 9:00pm**  
**November 20 and 21 from 9:00am till 6:00pm**

If you are ready to start living your life, beyond your family “programs” that keep running at the back of your subconscious mind, - come and join us for two and a half days of unforgettable and life changing experience. Come and experience how constellations can resolve conflicts, uncover and heal old stubborn issues, and transform repetitive patterns that seem to surface in our lives.

Constellations are based on the idea that instead of originating in an individual's life's history, dysfunction and suffering often relate to painful events in the family's past. We often achieve only so much in our healing because the dysfunctional energies circulating in our families can interfere. It has been estimated that approximately 76% of the issues we face may have a systemic factor in their origin.

We all have a family from which we descend and to which we are connected by unbreakable bonds. The family system affects our perception and actions, our relationships, our health and our path in life. It also entangles us on a deep unconscious level to the pain and the fate of our ancestors. An unconscious love and loyalty to our family system can cause us to carry on the fate, unspoken secrets, hurts, and unresolved traumas of previous generations. If not resolved, these issues entangle our children, our grandchildren, and us until cleared. They are at the root of many of our reoccurring issues of both physical and emotional nature as well as perpetual cycles of disconnection in families.

### Why Family Constellation?

This workshop is nothing like you have ever experienced before. It is truly profound, enlightening, and very healing experience. This work goes very deep, and far beyond our personal life experiences and childhood trauma that are normally attempted to be addressed through regular psychotherapy. It also uncovers how the dysfunctional belief systems that run our lives were originated.

Constellation workshops are done for personal, professional, and organizational problems. It provides an opportunity to address on a new and deeper level:

- anxiety, depression, addictions;
- unresolved childhood trauma or pain;
- persistent physical health problems;
- relationship problems;
- money problems, and much, much more.

Welcome to this magical and transformational walk with your Family Soul towards reclaiming your life and your freedom!

The harmonizing effect of this work will bring balance not only to the participants of the workshop, but to their descendants and ancestors as well.
